SECTION 1: IDENTIFICATION

Product Name: ZINC STEARATE

CAS Number: 557-05-1

Chemical Formula: Zn(C18H35O2)2

Synonyms: Dibasic zinc stearate; stearic acid zinc salt; octadecanoic acid zinc salt, zinc distearate.

Company
Silver Fern Chemical, Inc.
2226 Queen Anne Avenue North
Suite #C
Seattle WA 98109, USA

SECTION 2: HAZARD IDENTIFICATION

Emergency Overview

WARNING! MAY FORM COMBUSTIBLE DUST CONCENTRATIONS IN AIR.

SAF-T-DATA\textsuperscript{(sm)} Ratings (Provided here for your convenience)

Health Rating: 2 - Moderate (Life)
Flammability Rating: 2 - Moderate
Reactivity Rating: 1 - Slight
Contact Rating: 2 - Moderate
Lab Protective Equip: GOGGLES; LAB COAT; VENT HOOD; PROPER GLOVES
Storage Color Code: Green (General Storage)

Potential Health Effects

Inhalation:
Symptoms from excessive inhalation of dust may include coughing and difficult breathing.
Material Safety Data Sheet

ZINC STEARATE

Ingestion:
Large dose may cause abdominal spasms and diarrhea.

Skin Contact:
May cause skin irritation. Constant exposure to excessive amounts may cause eczema.

Eye Contact:
May cause redness, pain.

Chronic Exposure:
Grossly excessive and chronic inhalation of the dust may cause a progressive chemical pneumonitis, cyanosis, and pulmonary edema.

Aggravation of Pre-existing Conditions:
Persons with pre-existing skin disorders, impaired respiratory function, or a history of pulmonary disease should not be exposed to dusts.

The exact product composition depends on the source and purity of the fatty acid used.

SECTION 4: FIRST AID MEASURES

Inhalation:
Remove to fresh air. Get medical attention for any breathing difficulty.

Ingestion:
Give several glasses of water to drink to dilute. If large amounts were swallowed, get medical advice.

Skin Contact:
Wash exposed area with soap and water. Get medical advice if irritation develops.

Eye Contact:
Wash thoroughly with running water. Get medical advice if irritation develops.

SECTION 5: FIRE FIGHTING MEASURES

Fire:
Flash point: 279C (534F) OC
Autoignition temperature: 790C (1454F)
Minimum dust cloud ignition temperature is 690C (1274F). Contact with strong oxidizers may cause fire.

Explosion:
Material Safety Data Sheet

ZINC STEARATE

Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Minimum explosible concentration: 0.02 g/l (air) (Bureau of Mines, 1968). Maximum explosion pressure: 68 lb./sq. in. @ 0.3 ounces per cubic foot. Sensitive to static discharge.

Fire Extinguishing Media:
Water spray, dry chemical, alcohol foam, or carbon dioxide. Water or foam may cause frothing.

Special Information:
In the event of a fire, wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode. Pressure from the extinguishing media may cause severe dusting. Melted fatty acid can give "grease" type fire. Explosion hazards apply only to dusts, not to granular forms of this product. Actual temperatures and concentrations may vary by product composition.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Remove all sources of ignition. Ventilate area of leak or spill. Wear appropriate personal protective equipment as specified in Section 8. Spills: Clean up spills in a manner that does not disperse dust into the air. Use non-sparking tools and equipment. Reduce airborne dust and prevent scattering by moistening with water. Pick up spill for recovery or disposal and place in a closed container.

SECTION 7: HANDLING AND STORAGE

Keep in a tightly closed container, stored in a cool, dry, ventilated area. Protect against physical damage. Avoid dust formation and control ignition sources. Employ grounding, venting and explosion relief provisions in accord with accepted engineering practices in any process capable of generating dust and/or static electricity. Empty only into inert or non-flammable atmosphere. Emptying contents into a non-inert atmosphere where flammable vapors may be present could cause a flash fire or explosion due to electrostatic discharge. Containers of this material may be hazardous when empty since they retain product residues (dust, solids); observe all warnings and precautions listed for the product.

SECTION 8: EXPOSURE CONTROLS AND PERSONAL PROTECTION

Airborne Exposure Limits:
- OSHA Permissible Exposure Limit (PEL):
  15 mg/m3 total dust, 5 mg/m3 respirable fraction for zinc stearate
- ACGIH Threshold Limit Value (TLV):
  10 mg/m3 total dust for stearates (does not include stearates of toxic metals) A4 - Not classifiable as a Human Carcinogen.

Ventilation System:
A system of local and/or general exhaust is recommended to keep employee exposures below the Airborne Exposure Limits. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at its...

**Personal Respirators (NIOSH Approved):**
If the exposure limit is exceeded and engineering controls are not feasible, a half facepiece particulate respirator (NIOSH type N95 or better filters) may be worn for up to ten times the exposure limit or the maximum use concentration specified by the appropriate regulatory agency or respirator supplier, whichever is lowest. A full-face piece particulate respirator (NIOSH type N100 filters) may be worn up to 50 times the exposure limit, or the maximum use concentration specified by the appropriate regulatory agency, or respirator supplier, whichever is lowest. If oil particles (e.g. lubricants, cutting fluids, glycerine, etc.) are present, use a NIOSH type R or P filter. For emergencies or instances where the exposure levels are not known, use a full-facepiece positive-pressure, air-supplied respirator. WARNING: Air-purifying respirators do not protect workers in oxygen-deficient atmospheres.

**Skin Protection:**
Gloves and lab coat, apron or coveralls.

**Eye Protection:**
Use chemical safety goggles.

**SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

**Appearance:**
Fine, soft white powder, granules, prills or flakes.

**Odor:**
Slight odor of fatty acid.

**Solubility:**
Insoluble in water, alcohol, ether; slightly soluble in benzene.

**Density:**
1.095

**pH:**
No information found.

**% Volatiles by volume @ 21C (70F):**
0

**Boiling Point:**
Decomposes.

**Melting Point:**
120 - 130°C (248 - 266°F)

**Vapor Density (Air=1):**
Not applicable.

**Vapor Pressure (mm Hg):**
Not applicable.
Material Safety Data Sheet

ZINC STEARATE

Evaporation Rate (BuAc=1):
Not applicable.

SECTION 10: STABILITY AND REACTIVITY

Stability:
Stable under ordinary conditions of use and storage.

Hazardous Decomposition Products:
Burning may produce carbon monoxide, carbon dioxide, and zinc oxides.

Hazardous Polymerization:
Will not occur.

Incompatibilities:
Strong oxidizers, strong alkalis, peroxides, oxygen, and acids.

Conditions to Avoid:
Heat, flames, ignition sources and incompatibles.

SECTION 11: TOXICOLOGICAL INFORMATION

LD50 oral, rat = > 10 gm/Kg.

SECTION 12: ECOLOGICAL INFORMATION

Environmental Fate:
No information found.

Environmental Toxicity:
No information found.

SECTION 13: DISPOSAL CONSIDERATIONS

Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste disposal facility. Processing, use or contamination of this product may change the waste management options. State and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state and local requirements.

WHMIS:
This MSDS has been prepared according to the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all of the information required by the CPR.

Effective Date: 8/02/2007  Page 6 of 7
SECTION 16: OTHER INFORMATION

NFPA Ratings: Health: 0 Flammability: 1 Reactivity: 0

Label Hazard Warning:
WARNING! MAY FORM COMBUSTIBLE DUST CONCENTRATIONS IN AIR.

Label Precautions:
Store in a tightly closed container.
Avoid dust cloud in presence of an ignition source.
Maintain adequate ventilation.

Label First Aid:
Not applicable.

Product Use:
Laboratory Reagent.

Revision Information:
No Changes.

DISCLAIMER OF RESPONSIBILITY

The information on this MSDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, expressed or implied, regarding its correctness. Some information presented and conclusions drawn herein are from sources other than direct test data on the substance itself. The conditions or methods of handling, storage, use and disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage, or expense arising out of or in any way connected with handling, storage, use, or disposal of this product. If the product is used as a component in another product, this MSDS information may not be applicable.
