SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION

1.1 Product identifier
   Product Name: Glycol Ether EP
   Synonym(s): Ethylene glycol monopropyl ether; 2-Propoxyethanol; n-Propoxyethanol; Propoxyethanol; Propyl cellosolve
   REACH Registration Number: No data available at this time.

1.2 Relevant identified uses of the substance or mixture and uses advised against
   General use: Industrial applications
   Uses advised against: None known

1.3 Details of the supplier and of the safety data sheet
   Manufacturer/Distributor
   Silver Fern Chemical, Inc.
   2226 Queen Anne Avenue North
   Suite C
   Seattle, WA 98109 USA
   1-866-282-3384
   Website - www.silverfernchemical.com; email address - info@silverfernchemical.com

1.4 Emergency telephone number: INFO-TRAC +1-800-535-5053; Outside USA & Canada +1-352-323-3500

SECTION 2 - HAZARDS IDENTIFICATION

2.1 Classification of substance or mixture
   Product definition: Substance
   Classification in accordance with 29 CFR 1910 (OSHA HCS) and Regulation EC No. 1272/2008
   Flammable liquid - Category 3 [H226]
   Acute toxicity, dermal - Category 4 [H312]
   Eye irritation - Category 2A [H319]

2.2 Label Elements
   Hazard Symbol(s): GHS02 GHS07
   Signal Word: Warning
   Hazard Statement(s): H226 - Flammable liquid and vapor
   H312 - Harmful in contact with skin
   H319 - Causes serious eye irritation

Precautionary Statements:
   [Prevention] P210 - Keep away from heat, sparks, open flames and hot surfaces. No smoking.
   P233 - Keep container tightly closed.
   P240 - Ground and bond container and receiving equipment.
   P241 - Use explosion-proof electrical, ventilating, lighting and mixing equipment.
   P242 - Use only non-sparking tools.
   P243 - Take precautionary measures against static discharge.
   P264 - Wash hands and other skin areas exposed to material thoroughly after handling.
   P280 - Wear protective gloves, protective clothing and eye protection.

   [Response] P303 + P361 + P353 - IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water or shower.
   P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
   P312 - Call a Poison Center or doctor if you feel unwell.
   P322 - Specific treatment: Contact a Poison Center or doctor. Refer to Section 4 of this SDS.
   P337 + P313 - If eye irritation persists: Get medical attention.
   P363 - Wash contaminated clothing before reuse.
   P370 + P378 - IN CASE OF FIRE: Use water fog or spray, carbon dioxide, foam or dry chemical for extinguishing.
SECTION 3 - COMPOSITION/INFORMATION ON INGREDIENTS

There are no ingredients present in this product which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

3.2 Mixtures

Not applicable

SECTION 4 - FIRST AID MEASURES

4.1 Description of first aid measures

**Inhalation:** If product mist or vapor causes respiratory irritation or distress, move the exposed person to fresh air immediately. If breathing is difficult or irregular, administer oxygen; if respiratory arrest occurs, start artificial respiration by trained personnel. If unconscious, maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. If irritation persists or if the victim feels unwell, seek medical attention.

**Eyes:** Immediately flush eyes with large amounts of water or saline solution for at least 15 minutes, occasionally lifting the upper and lower lids. Remove contact lenses, if present and easy to do, after first 2 minutes and continue rinsing. If irritation persists, seek medical advice, preferably from an ophthalmologist.

**Skin:** Flush skin with large amounts of water while removing contaminated clothing. Wash the affected area with soap and water and continue rinsing. Wash contaminated clothing and shoes thoroughly before reuse. Destroy contaminated leather items such as shoes, belts and watchbands. If irritation persists, seek medical attention.

**Ingestion:** Rinse mouth with water if the victim is conscious. Remove dentures, if present. DO NOT induce vomiting unless directed to do so by medical personnel. Vomiting may occur spontaneously. To prevent aspiration of material into the lungs, lay the victim on one side with the head lower than the waist. Never give anything by mouth to an unconscious or convulsing person. Do not leave the victim unattended. Seek medical attention if the victim feels unwell or if a large quantity of material has been swallowed.

4.2 Most important symptoms and effects, both acute and delayed

**Potential health symptoms and effects**

**Eyes:** Causes severe eye irritation with inflammation, pain and tearing. May cause moderate corneal injury. Vapor may cause corneal injury.

**Skin:** May cause skin irritation with localized redness, itching and discomfort. Prolonged contact may cause defatting of the skin and dermatitis. May be harmful if absorbed through the skin.

**Inhalation:** Inhalation of mist or vapor may cause irritation of the upper respiratory tract. May be harmful if inhaled. Symptoms may include depression of the central nervous anesthetic or narcotic effects.

**Ingestion:** May cause irritation of the digestive tract with nausea and vomiting. Harmful if swallowed. May cause damage to the liver and kidneys. Causes depression of the central nervous system with effects similar to those of inhalation. May cause blood disorders.

**Chronic:** Prolonged or repeated skin contact may cause defatting of the skin and dermatitis. Chronic inhalation, skin absorption or ingestion can cause damage the liver and kidneys and cause blood disorders.

4.3 Indication of any immediate medical attention and special treatment needed

**Advice to Doctor and Hospital Personnel**

Treat symptomatically and supportively.

SECTION 5 - FIRE FIGHTING MEASURES

5.1 Extinguishable media

**Suitable methods of extinction:** Use extinguishing media such as water spray or fog, carbon dioxide, foam and dry chemical.

**Unsuitable methods of extinction:** Water jets or streams may spread the fire or cause violent steam eruptions.

5.2 Special hazards arising from the substance or mixture

Flammable liquid and vapor! Vapors are heavier than air and can travel along the ground to a source of ignition and flash back. Vapors can spread along the ground and collect in low or confined areas. Exposure to ignition sources can ignite vapors, causing a flash fire. Closed containers may explode due to the buildup of pressure when exposed to extreme heat. During emergency conditions overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent or may be delayed. Obtain medical attention.

**Explosion hazards:** Avoid sources of ignition. Violent steam generation may occur upon application of direct water stream to hot liquids.

5.3 Advice for firefighters

Full protective equipment including self-contained breathing apparatus should be used. Water may be used to cool closed containers to prevent pressure buildup and possible autoignition or explosion when exposed to extreme heat. If possible, firefighters should control runoff water to prevent environmental contamination.

Effective Date: 9 February 2017
Supercedes: 25 August 2015

Safety Data Sheet
Glycol Ether EP
SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

6.1 Personal precautions, protective equipment and emergency procedures
Evacuate non-essential personnel. Ventilate the area. Remove all sources of ignition. Wear appropriate protective clothing and equipment designated in Section 8.

6.2 Environmental precautions
Avoid dispersal of spilled material or runoff and prevent contact with soil and entry into drains, sewers or waterways.

6.3 Methods and materials for containment and cleaning up
Clean up spills immediately. Cover drains and contain spill. Cover spill with a large quantity of inert absorbent. Do not use combustible material such as sawdust. Collect material using non-sparking tools and place into an approved container(s) for proper disposal. Observe possible material restrictions (Sections 7.2 and 10.5). Do not allow material or runoff from rinsing contaminated areas to enter floor drains or storm drains and ditches that lead to waterways. Dispose of via a licensed waste disposal contractor.

6.4 Reference to other sections
For indications about waste treatment, see Section 13.

SECTION 7 - HANDLING AND STORAGE

7.1 Precautions for safe handling
Wear all appropriate personal protective equipment specified in Section 8. Do not get in eyes or on skin or clothing. Do not inhale mist or vapor. No smoking. If normal use of material presents a respiratory hazard, use only adequate ventilation or wear an appropriate respirator.

Advice on protection against fire and explosion
Avoid sources of ignition. Vapors may form an explosive mixture with air, especially in confined spaces.

7.2 Conditions for safe storage, including any incompatibilities
Store in dry, cool, well-ventilated areas away incompatible materials (see Section 10.5), food and drink. Keep away from heat and ignition sources. Transfer only to approved containers having correct labeling. Keep containers tightly closed when not in use. Protect containers against physical damage. Containers that have been opened must be carefully resealed and kept upright to prevent spillage. Containers are hazardous when empty as they contain product residues. Use appropriate containment to avoid environmental contamination. Ventilate closed areas. Do not take internally. Keep out of reach of children.

7.3 Specific end uses
Apart from the uses mentioned in Section 1.2, no other specific uses are stipulated.

SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters
Contains no substances with occupational exposure limits.

8.2 Exposure controls
Engineering measures: Technical measures and appropriate working operations should be given priority over the use of personal protective equipment. Use adequate ventilation. Local exhaust is preferable.

Individual protection measures: Wear protective clothing to prevent repeated or prolonged contact with product. Protective clothing needs to be selected specifically for the workplace, depending on concentrations and quantities of hazardous substances handled. The chemical resistance of the protective equipment should be enquired at the representative supplier.

Hygiene measures: Facilities storing or using this material should be equipped with an eyewash station and safety shower. Change contaminated clothing. Preventive skin protection is recommended. Wash hands thoroughly after use, before eating, drinking, smoking or using the lavatory.

Eye/face protection: Wear safety glasses with unperforated side shields or protective splash goggles during use.

Hand Protection: Wear gloves recommended by glove supplier for protection against materials in Section 3. Gloves should be impermeable to chemicals and oil. Breakthrough time of selected gloves must be greater than the intended use period.

Skin protection: Wear protective clothing. Wear protective boots if the situation requires.

Respiratory protection: Always use an approved respirator when vapor/aerosols are generated. Where risk assessment shows air-purifying respirators are appropriate use a full-faced respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU). Follow OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149.

Environmental exposure controls: Do not empty into drains.

PPE must not be considered a long-term solution to exposure control. PPE usage must be accompanied by employer programs to properly select, maintain, clean fit and use. Consult a competent industrial hygiene resource to determine hazard potential and/or the PPE manufacturers to ensure adequate protection.

Safety Glasses  Gloves  Protective Apron
SECTION 10 - STABILITY AND REACTIVITY

10.1 Reactivity
No special reactivity has been reported.

10.2 Chemical stability
Stable under recommended storage conditions.

10.3 Possibility of hazardous reactions
Hazardous polymerization will not occur.

10.4 Conditions to avoid
Heat, flames, sources of ignition and contact with incompatible materials.

10.5 Incompatible materials
Strong bases, strong acids, strong oxidizing agents

10.6 Hazardous decomposition products
Thermal decomposition products include oxides of carbon, aldehydes, ketones, organic acids.

SECTION 11 - TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Acute Oral Toxicity
LD₅₀, rat - 3.089 mg/kg (male)

Acute inhalation toxicity
LC₅₀, rat - >9 mg/l, 6 h; no deaths occurred at this concentration

Acute dermal toxicity
LD₅₀, rabbit - 1.337 mg/kg

Skin irritation
May cause skin irritation.

Eye irritation
Causes serious eye irritation.

Sensitization
No data available

Genotoxicity in vitro
No data available

Mutagenicity
No data available
**Specific organ toxicity - single exposure**
No data available

**Specific organ toxicity - repeated exposure**
No data available

**Aspiration hazard**
No data available

### 11.2 Further information

Ethylene Glycol Monopropyl Ether (CAS #2807-30-9) is not listed as a carcinogen by IARC, ACGIH, NTP or OSHA.

No data is available regarding the mutagenicity or teratogenicity of this product, nor is there any available data that indicates it causes adverse developmental or fertility effects.

Handle in accordance with good industrial hygiene and safety practice.

### SECTION 12 - ECOLOGICAL INFORMATION

#### 12.1 Toxicity

Large discharges or spills of this material may be harmful to aquatic life.

**Acute and prolonged toxicity to fish:**  \( \text{LC}_{50} \) - Pimephales promelas (Fathead minnow), 96 h: >5,000 mg/l

**Toxicity to aquatic invertebrates:**  \( \text{EC}_{50} \) - Daphnia magna (Water flea), 48 h: >5,000 mg/l

**Toxicity to aquatic plants:**  \( \text{ErC}_{50} \): Pseudokirchneriella subcapitata (green algae), 72 h: >100 mg/l (growth rate inhibition)

**Toxicity to microorganisms:**  \( \text{IC}_{50} \): Bacteria, 16 h: >1,000 mg/l (growth rate)

#### 12.2 Persistence and degradability

This material is readily biodegradable.

#### 12.3 Bioaccumulation potential

This material has low potential to bioaccumulate.

#### 12.4 Mobility in soil

Potential for mobility in soil is very high.

#### 12.5 Results of PBT and vPvB assessment

No data available

#### 12.6 Other adverse effects

**Additional ecological information**

Do not allow material to run into surface waters, wastewater or soil.

An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

### SECTION 13 - DISPOSAL CONSIDERATIONS

#### 13.1 Waste treatment methods

**Methods of disposal:** The generation of waste should be avoided or minimized whenever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spill material and runoff and contact with soil, waterways, drains and sewers.

**RCRA P-Series:** No listing

**RCRA U-Series:** No listing

### SECTION 14 - TRANSPORT INFORMATION

**Note:** Transportation information provided is for reference only. Customer is urged to consult 49 CFR 100 - 177, IMDG, IATA, EC, United Nations TDG and WHMIS (Canada) TDG information manuals for detailed regulations and exceptions covering specific container sizes, packaging materials and methods of shipping.

**US DOT (Domestic Ground Transportation)**

- **Proper Shipping Name:** Flammable liquid, n.o.s. (Ethylene Glycol Monopropyl Ether)
- **Hazard Class:** 3
- **UN/NA:** UN1993
- **Packing Group:** III
- **NAERG:** Guide #128
- **Packaging Authorization:** Non-Bulk: 49 CFR 173.202; Bulk: 173.242
- **Packaging Exceptions:** 49 CFR 173.150

**IMO/IMDG (Water Transportation)**

- **Proper Shipping Name:** Flammable liquid, n.o.s. (Ethylene Glycol Monopropyl Ether)
- **Hazard Class:** 3
- **UN/NA:** UN1993
- **Packing Group:** III
- **Marine Pollutant:** No
- **EMS Number:** F-E, S-D

**Effective Date:** 9 February 2017

**Supercedes:** 25 August 2015

**Safety Data Sheet**
Glycol Ether EP
SECTION 15 - REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for substance or mixture

U. S. Federal Regulations

OSHA Hazard Communication Standard: This material is classified as hazardous in accordance with OSHA 29 CFR 1910-1200.

EPA Risk Management Planning Standard: This product is not regulated under EPA RMP Standard (RMP) 40 CFR Part 68.

EPA Federal Insecticide, Fungicide and Rodenticide Act: This product is not a registered Pesticide under the FIFRA, 40 CFR Part 150.

Toxic Substance Control Act (TSCA) Inventory: Ethylene Glycol Monopropyl Ether (CAS #2807-30-9) is listed on the TSCA Inventory. It is not subject to TSCA 12(b) Export Notification.

Drug Enforcement Administration (DEA) List 2, Essential Chemicals (21 CFR 1310.02(b) and 1310.4(f)(2) and Chemical Code Number No listing

Drug Enforcement Administration (DEA) List s1 & 2, Exempt Chemical Mixtures (21 CFR 1310.12(c)) and Code Number No listing

Department of Homeland Security (DHS) Chemical Facility Anti-Terrorism Standards (CFATS) Chemicals No listing

Superfund Amendments and Reauthorization Act (SARA)

SARA Section 311/312 Hazard Categories: Fire Hazard, Acute Health Hazard

SARA 313 Information: Glycol Ethers (SARA code N230) are subject to reporting requirements of Section 313 of the Emergency Planning and Community Right-to-Know Act of 1986.

SARA 302/304 Extremely Hazardous Substance: No components of the product exceed the threshold (de minimis) reporting levels established by of these sections of Title III of SARA.

SARA 302/304 Emergency Planning & Notification: No components of the product exceed the threshold (de minimis) reporting levels established by of these sections of Title III of SARA.

Comprehensive Response Compensation and Liability Act (CERCLA): This product contains the following CERCLA reportable substances:

Glycol Ethers - There is no RQ assigned to this broad class, although the class is a CERCLA hazardous substances. Refer to 50 Federal Register 13456 (April 4, 1985).

Clean Air Act (CAA)

Glycol Ethers (EDF-109) are listed as Hazardous Air Pollutants (HAPs) designated in CAA Section 112(b).
This product does not contain any Class 1 Ozone depleters.
This product does not contain any Class 2 Ozone depleters.

Clean Water Act (CWA)

Glycol Ethers (EDF-109) are listed as Hazardous Substances under the CWA.
None of the chemicals in this product are listed as Priority Pollutants under the CWA.
None of the chemicals in this product are listed as Toxic Pollutants under the CWA.

U.S. State Regulations

California Prop 65, Safe Drinking Water and Toxic Enforcement Act of 1986
This product may contain Ethylene Glycol Monoethyl Ether (CAS #110-80-5) is known to the State of California to cause developmental harm (male).

Other U.S. State Inventories
Ethylene glycol monopropyl ether (CAS #2807-30-9) is not listed on any State Hazardous Substance Inventories, Right-to-Know lists and/or Air Quality/Air Pollutants lists.

Canada

WHMIS Hazard Symbol and Classification

D1B - Very toxic material causing other toxic effects - acute lethality
D2B - Toxic material causing other toxic effects - eye irritation in animals

Canadian National Pollutant Release Inventory (NPRI): None of the chemicals in this product are listed on the NPRI.

European Economic Community

WGK, Germany (Water danger/protection): 1
15.2 Chemical safety assessment
For this product a chemical safety assessment was not carried out.
