SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION

1.1 Product identifier
   Product name: Dimethyl Carbonate
   Synonym(s): DMC; Methyl carbonate, carbonic acid, dimethyl ester

1.2 Relevant identified uses of the substance or mixture and uses advised against
   General use: Industrial applications
   Uses advised against: Use only in well ventilated areas.

1.3 Details of the supplier and of the safety data sheet
   Manufacturer/Distributor
   Silver Fern Chemical, Inc.
   2226 Queen Anne Avenue North Suite C
   Seattle, WA 98109 USA 1-866-282-3384
   Website - www.silverfernchemical.com; email address - info@silverfernchemical.com

1.4 Emergency telephone number: +1-800-535-5053; Outside USA & Canada +1-352-323-3500

SECTION 2 - HAZARDS IDENTIFICATION

2.1 Classification of substance or mixture
   Product definition: Substance
   Classification in accordance with 29 CFR 1910 (OSHA HCS) and Regulation EC No. 1272/2008
   Flammable Liquid - Category 2 [H225]

2.2 Label elements
   Hazard symbol(s):
   H225 - Highly flammable liquid and vapor
   Signal word: Danger
   Precautionary statements:
   [Prevention] P210 - Keep away from heat, open flames and hot surfaces. No smoking.
   P233 - Keep container tightly closed.
   P240 - Ground and bond container and receiving equipment.
   P241 + P242 - Use explosion proof electrical, ventilating and lighting equipment. Use only non-sparking tools.
   P243 - Take precautionary measures against static discharge.
   P280 - Wear protective gloves, protective clothing and eye protection.
   [Response] P303 + P361 + P353 - IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water or shower.
   P370 + P378 - In case of fire: Use water fog, foam, dry chemical or carbon dioxide for extinction.
   P403 + P235 - Store in a well-ventilated place. Keep cool.
   P501 - Dispose of contents and containers in accordance with national and local regulations.

2.3 Hazards not otherwise classified (HNOC) or not covered by GHS
   Repeated exposure may cause skin dryness or cracking.

SECTION 3 - COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substances

<table>
<thead>
<tr>

</table>

There are no additional ingredients present in this product which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

3.2 Mixtures
   Not applicable
SECTION 4 – FIRST AID MEASURES

4.1 Description of first aid measures

Inhalation: If product mist or vapor causes respiratory irritation or distress, move the exposed person to fresh air immediately. If breathing is difficult or irregular, administer oxygen; if respiratory arrest occurs, start artificial respiration by trained personnel. If unconscious, maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. If symptoms persist or if the victim feels unwell, seek medical attention.

Eyes: Immediately flush eyes with large amounts of water or saline solution for at least 15 minutes, occasionally lifting the upper and lower lids. Remove contact lenses, if present and easy to do, after first 2 minutes and continue rinsing. If irritation persists seek medical attention, preferably from an ophthalmologist.

Skin: Flush skin with large amounts of water while removing contaminated clothing. Wash the affected area with soap and water followed by thorough rinsing. Wash contaminated clothing and shoes before reuse. If irritation persists, seek medical attention.

Ingestion: Rinse mouth with water if the victim is conscious. Remove dentures if present. DO NOT induce vomiting unless directed to do so by medical personnel. Vomiting may occur spontaneously. To prevent aspiration of material into the lungs, lay the victim on one side with the head lower than the waist. Never give anything by mouth to an unconscious or convulsing person. Do not leave the victim unattended. Seek immediate medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Potential health symptoms and effects

Eyes: Causes eye irritation with inflammation, itching, tearing, swelling and pain.

Skin: May cause mild skin irritation. Prolonged contact with unprotected skin may cause drying and cracking of the skin and dermatitis.

Inhalation: Inhalation of mist or vapor causes irritation of the upper respiratory tract. Symptoms may include headache, nausea, drowsiness, inebriation, unconsciousness, respiratory arrest and central nervous system depression. Inhalation of large amounts can cause lung edema. Symptoms may be delayed.

Ingestion: Causes irritation of the digestive tract with nausea, vomiting, abdominal pain and diarrhea. May be harmful if ingested in large quantities. This material can get into the lungs during swallowing or vomiting. This results in lung inflammation, pulmonary edema and other lung injury.

Chronic: Individuals with pre-existing skin conditions and respiratory disorders may be more susceptible to the effects of this product. Prolonged or repeated skin contact may cause drying and cracking of the skin, dermatitis or aggravate existing skin conditions.

4.3 Indication of any immediate medical attention and special treatment needed

Advice to doctor and hospital personnel

Treat symptomatically and supportively. Effects may be delayed.

SECTION 5 – FIRE FIGHTING MEASURES

5.1 Extinguishing media

Suitable methods of extinction: Use extinguishing media such as water spray or fog, carbon dioxide, foam and dry chemical.

Unsuitable methods of extinction: Water jets or streams may spread the fire.

5.2 Special hazards arising from the substance or mixture

Highly flammable liquid and vapor! Vapors can spread along the ground and collect in low or confined areas. Exposure to ignition sources (e.g. cell phones) can ignite vapors, causing a flash fire. Closed containers may explode due to the buildup of pressure when exposed to extreme heat. During emergency conditions overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent or may be delayed. Obtain medical attention.

Explosion hazards: Avoid sources of ignition. Vapors may form an explosive mixture with air, especially in confined spaces. Ground and bond containers in storage and when containers are in use.

5.3 Advice to firefighters

Firefighters should wear full bunker gear including NIOSH-approved positive pressure self-contained breathing apparatus to protect against potential hazardous combustion or decomposition products and oxygen deficiencies. Water may be used to cool closed containers to prevent pressure buildup and possible autoignition or explosion when exposed to extreme heat. If possible, firefighters should control runoff to prevent environmental contamination. Notify appropriate authorities of potential fire and explosion hazard if liquid enters sewers or waterways.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Evacuate non-essential personnel. Wear appropriate protective clothing and equipment designated in Section 8.2. Ventilate the area. Remove all sources of ignition. NO SMOKING. Clean up spills immediately. Spill creates a slip hazard.

6.2 Environmental precautions

Avoid dispersal of spilled material or runoff and prevent contact with soil and entry into drains, sewers or waterways.

6.3 Methods and materials for containment and cleaning up

Approach spill from upwind direction. Cover drains and contain spill. Cover spill with a large quantity of inert absorbent. Do not use combustible material such as sawdust. Collect material using non-sparking tools and place into an approved container for proper disposal. Observe possible
material restrictions (Sections 7.2 and 10.5). Do not allow material or runoff from rinsing contaminated areas to enter floor drains or storm drains and ditches that lead to waterways. Dispose of via a licensed waste disposal contractor.

6.4 Reference to other sections
For indications about waste treatment, see Section 13.

SECTION 7 – STORAGE AND HANDLING

7.1 Precautions for safe handling
Wear all appropriate personal protective equipment specified in Section 8.2. Do not get in eyes or on skin or clothing. Do not inhale mist or vapor. NO SMOKING. If normal use of material presents a respiratory hazard, use only adequate ventilation or wear an appropriate respirator. Open containers slowly to control possible pressure release. Wash contaminated clothing and shoes thoroughly before reuse.

Advice on protection against fire and explosion
Keep away from heat and sources of ignition. To avoid fire or explosion, dissipate static electricity during transfer by grounding and bonding containers and equipment before transferring material.

7.2 Conditions for safe storage, including any incompatibilities
Store in dry, cool, well-ventilated areas away from incompatible materials (see Section 10.5), food and drink. Keep away from heat and ignition sources. Transfer only to approved containers having correct labeling. Keep containers tightly closed when not in use. Protect containers against physical damage. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Containers are hazardous when empty as they contain product residue. Do not cut, drill, weld, braze, solder grind or perform similar operations on or near empty containers. Use appropriate containment to avoid environmental contamination. Ventilate closed areas. Do not take internally. Keep out of reach of children.

7.3 Specific end uses
Apart from the uses mentioned in Section 1.2, no other specific uses are stipulated.

SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters
Occupational exposure limit values
Contains no substances with occupational exposure limit values.

8.2 Exposure controls
Engineering measures: Technical measures and appropriate working operations should be given priority over the use of personal protective equipment. Use adequate ventilation. Local exhaust is preferable. Refer to Section 7.1.

Individual protection measures: Wear protective clothing to prevent repeated or prolonged contact with product. Protective clothing needs to be selected specifically for the workplace, depending on concentrations and quantities of hazardous substances handled. The chemical resistance of the protective equipment should be enquired at the representative supplier.

Hygiene measures: Facilities storing or using this material should be equipped with an eyewash station and safety shower. Change contaminated clothing. Preventive skin protection is recommended. Wash hands thoroughly after use, before eating, drinking, smoking or using the lavatory.

Eye/face protection: Wear safety glasses with unperforated side shields or protective splash goggles during use.

Hand protection: Wear gloves made of butyl rubber or those recommended by glove supplier for protection against materials in Section 3. Gloves should be impermeable to chemicals and oil. Breakthrough time of selected gloves must be greater than the intended use period.

Skin protection: Wear protective clothing. Wear protective boots if the situation requires.

Respiratory protection: Always use an approved respirator when vapor/aerosols exceed permissible exposure limits. Where risk assessment shows air-purifying respirators are appropriate use a half-mask respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU). Follow OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149.

Environmental exposure controls: Do not empty into drains. PPE must not be considered a long-term solution to exposure control. PPE usage must be accompanied by employer programs to properly select, maintain, clean fit and use. Consult a competent industrial hygiene resource to determine hazard potential and/or the PPE manufacturers to ensure adequate protection.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties
Appearance: Clear, colorless liquid
Odor: Mild, pleasant
Odor Threshold: No data available
Molecular Weight 90.08 g/mol
Chemical Formula C₃H₆O₃
pH No data available
Freezing/Melting Point 2 - 4 °C (30 - 40 °F)
Boiling Point Range 0 °C (194 °F) @ 760 mm Hg
Evaporation Rate 3 [n-BuOAc = 1]
Flammability (solid, gas) Not applicable
Flash Point 18 °C (39.9 °F)
Autoignition Temperature 455 °C (851 °F)
Decomposition Temperature No data available
Lower Explosive Limit (LEL) 4.22% (v)
Upper Explosive Limit (UEL) 12.87% (v)
Vapor Pressure 18 mm Hg @ 20 °C
Vapor Density 3.1 [Air = 1]
Specific Gravity 1.069
Viscosity 0.625 mPa·s
Solubility in Water 139 g/l @ 22 °C
Partition Coefficient (n-octanol/water) log P ow = 0.23 @ 21.7 °C
Oxidizing Properties Not applicable
Explosive Properties Not applicable
Volatile by Weight @ 21 °C 100%

9.2 Other Data
None known

SECTION 10 – STABILITY AND REACTIVITY

10.1 Reactivity
This material is stable under normal handling conditions and use.

10.2 Chemical Stability
This material is stable under recommended storage conditions.

10.3 Possibility of hazardous reactions
Vapors may form explosive mixture with air. Reacts violently with oxidants and potassium tert-butoxide causing a fire hazard. Hazardous polymerization will not occur.

10.4 Conditions to avoid
High temperatures, sources of ignition, hot surfaces, contact with incompatible materials. Avoid impact. Avoid use in confined areas.

10.5 Incompatible materials
Strong oxidizing agents, strong acids, strong bases

10.6 Hazardous decomposition products
Thermal decomposition products include oxides of carbon.

SECTION 11 – TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects
Acute oral toxicity
LD₅₀, rat: 9,000 mg/kg

Acute inhalation toxicity
LC₅₀, rat: > 140 mg/l, 4 h

Acute dermal toxicity
LD₅₀, rabbit: 5,000 mg/kg

Skin irritation
May cause mild skin irritation.

Eye irritation
Causes eye irritation.

Sensitization
Patch test, human - negative results

Genotoxicity in vitro
Ames test - negative results

Mutagenicity
Mammal cell test, chromosomal aberration - negative results
Specific organ toxicity - single exposure
May cause respiratory irritation.

Specific organ toxicity - repeated exposure
No data available

Aspiration hazard
No data available

11.2 Further information
This product contains no substances present at levels greater than or equal to the 0.1% threshold (de minimis) that are identified as probable, possible, potential or confirmed carcinogens by ACGIH, IARC, NTP or OSHA. No data is available regarding the mutagenicity or teratogenicity of this product, nor is there any available data that indicates it causes adverse developmental or fertility effects.

Handle in accordance with good industrial hygiene and safety practice.

SECTION 12 - ECOLOGICAL INFORMATION

12.1 Toxicity
Large spills or discharges of this material may be harmful to aquatic life.
Toxicity to fish: $LC_{50}$ - Leuciscus idus (Golden orfe), 96 h: 1,000 mg/l

12.2 Persistence and degradability
This product is readily biodegradable.

12.3 Bioaccumulation potential
This material is not expected to bioaccumulate.

12.4 Mobility in soil
No data available

12.5 Results of PBT and vPvB assessment
No data available

12.6 Other effects
Additional ecological information
Do not allow material to run into surface waters, wastewater or soil.
An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

SECTION 13 – DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods
Methods of disposal: The generation of waste should be avoided or minimized whenever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

RCRA F-Series: No listings above the reportable threshold (de minimis)
RCRA U-Series: No listings above the reportable threshold (de minimis)

SECTION 14 – TRANSPORTATION INFORMATION

Note: Transportation information provided is for reference only. Customer is urged to consult 49 CFR 100 - 177, IMDG, IATA, EC, United Nations TDG and WHMIS (Canada) TDG information manuals for detailed regulations and exceptions covering specific container sizes, packaging materials and methods of shipping.

Limited quantity for flammable liquids Packing Group II when inner packagings are not over 1.0 liter (0.3 gallon) net capacity each, packed in a strong outer packaging.

USA DOT (Ground Transportation) - Bulk and Non-bulk
Proper Shipping Name: Dimethyl Carbonate
Hazard Class 3
UN/NA UN1161
Packing Group II
NEAREG Guide #129
Packaging Exceptions: 49 CFR 173.150

IMO/IMDG (Water Transportation)
Proper Shipping Name: Dimethyl Carbonate
Hazard Class 3
UN/NA UN1161

Drum Label(s)
### Packing Group
- **II**

### Marine Pollutant
- No

### EMS Number
- F-E, S-D

### ICAO/IATA (Air Transportation)
- **Proper Shipping Name**: Dimethyl Carbonate
- **Hazard Class**: 3
- **UN/NA**: UN1161
- **Packing Group**: II
- **Quantity Limitations**: 49 CFR 175.27 and 175.75 - Cargo Aircraft Only: 60 l; Passenger Aircraft: 5 l

### Section 15 - Regulatory Information

#### 15.1 Safety, health and environmental regulations/legislation specific for substance or mixture

**U. S. Federal Regulations**
- **OSHA Hazard Communication Standard**: This material is classified as hazardous in accordance with OSHA 29 CFR 1910-1200.
- **EPA Risk Management Planning Standard**: This product is not regulated under EPA RMP Standard (RMP) 40 CFR Part 68.
- **EPA Federal Insecticide, Fungicide and Rodenticide Act**: This product is not a registered Pesticide under the FIFRA, 40 CFR Part 150.
- **Toxic Substance Control Act (TSCA) Inventory**: All substances in this product are listed on the TSCA Inventory. This product is not subject to TSCA 12(b) Export Notification.
- **Drug Enforcement Administration (DEA) List 2, Essential Chemicals (21 CFR 1310.02(b)) and 1310.4(f)(2)) and Chemical Code Number**: No listing
- **Drug Enforcement Administration (DEA) Lists 1 & 2, Exempt Chemical Mixtures (21 CFR 1310.12(c)) and Code Number**: No listing
- **Department of Homeland Security (DHS) Chemical Facility Anti-Terrorism Standards (CFATS) Chemicals**: No listing
- **Superfund Amendments and Reauthorization Act (SARA)**
  - **SARA Section 311/312 Hazard Categories**: Highly flammable liquid and vapor
  - **SARA 313 Information**: None of the components of the product exceed the threshold (de minimis) reporting requirements of Section 313 of the Emergency Planning and Community Right-to-Know Act of 1986.
  - **SARA 302/304 Extremely Hazardous Substance**: None of the components of the product exceed the threshold (de minimis) reporting levels of established by these sections of Title III of SARA.
  - **SARA 302/304 Emergency Planning & Notification**: None of the components of the product exceed the threshold (de minimis) reporting levels established by of these sections of Title III of SARA.
- **Comprehensive Response Compensation and Liability Act (CERCLA)**: This product contains no CERCLA reportable substances.
- **Clean Air Act (CAA)**
  - This product does not contain Hazardous Air Pollutants (HAPs) designated in CAA Section 112 (b).
  - This product does not contain Class 1 Ozone depleters.
  - This product does not contain Class 2 Ozone depleters.
- **Clean Water Act (CWA)**
  - This product does not contain Hazardous Substances.
  - This product does not contain Priority Pollutants.
  - This product does not contain Toxic Pollutants.
- **U.S. State Regulations**
  - **California Prop 65, Safe Drinking Water and Toxic Enforcement Act of 1986**: This product contains no chemical(s) known to the state of California to cause cancer birth defects or reproductive harm in concentrations that exceed the threshold (de minimis) reporting levels established under Proposition 65.
- **Other U.S. State Inventories**
  - **Dimethyl Carbonate (CAS #616-38-6)** is listed on the following State Hazardous Substance Inventories, Right-to-Know lists and/or Air Quality/Air Pollutants lists: NY, PA.
- **Canada**
  - **WHMIS Hazard Classification**: Highly flammable liquid and vapor
Effective Date: 22 April 2020
Supersedes: 30 March 2017

Canadian National Pollutant Release Inventory (NPRI): This substance is not listed on the NPRI.

**European Economic Community**

WGK, Germany (Water danger/protection): 1 (low hazard to waters)
